

bringing the games home!

design and build: Velodrome

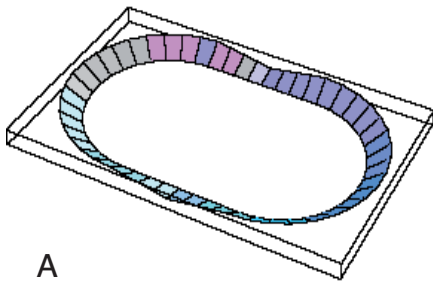

The cycling velodrome is an indoor track which cyclists race round very fast. The track has a slope or bank so that the cyclists can go round very quickly.

Checklist

1. A track that should be banked or sloped (look at the pictures)
2. Seating all around the track so people can watch
3. A roof that covers all the track
4. What else will make your Velodrome interesting?

Here are some pictures to help you.

A

B

C

A. Look at the shape of the track. Can you see how the track slopes in to the centre?

B. This is the Velodrome in Manchester. Look at the shape of the building.

C. Here is a picture from inside a velodrome of cyclists racing in a team
